Dear Prof. El-Sayed,

I am pleased to inform you that I will submit an article to the Journal of Physical Chemistry, the Richard Bersohn Festschrift. It is a pleasure for me to contribute to the issue in honor of him, the great teacher-scholar and the great scientist. My article will be on photodissociation dynamics of some small molecules in the gas phase.

Thank you very much for your kind attention.

Sincerely yours,

Hong Lae Kim
