

Dear Neil

Richard Bersohn had a considerable impact on my understanding of chemical reactivity.

Richard Bersohn is also a good and close friend.

For both reasons I would very much try to write a paper for his special issue.

GW, I very much hope to succeed, and if I do, the paper will be on some aspect of reaction dynamics.

I have however no project that is nearing completion so that I cannot swear that I will be successful.

All that I can promise is to try hard.

Thank you for your efforts

and please keep me posted on your progress

Raphy Levine
