

Professor M. El-Sayed  
Editor in Chief, Journal of Physical Chemistry  
School of Chemistry and Biochemistry  
Georgia Institute of Technology  
Atlanta, GA 30332.

29 January 2003

Dear Professor El-Sayed,

I strongly support the proposed special issue of the Journal of Physical Chemistry A to mark the retirement of Prof Richard Bersohn. It will be a great pleasure to contribute an original paper to the issue, most probably on our ongoing studies of the quantum state resolved dynamics of photo-initiated reactions of polyatomic molecules.

Yours sincerely

Andrew Orr-Ewing
