Dear Prof. El-Sayed,

I received information on special Festschrift issue for prof. Richard Bersohn in the Journal of Physical Chemistry from prof. Neil Shafer-Ray. I would like to greatly contribute to special Festschrift issue for Prof. Richard Bersohn.

The general topic of my contribution is "Cavity ring-down spectroscopy of aromatic radicals". I hope that my contribution meets the high standards of special Festschrift issue.

Your consideration of this Festschrift is greatly appreciated.

Sincerely yours,

Kenichi Tonokura
